– Browser-based technology –

Crash Course on Internet Use

- Survey the top 50 transportation Web sites for research and best practices on specific transportation engineering and policy topics.
- Learn to use transportation-specific search engines to find critical information directly applicable to your job.
- Explore the "Invisible Web" of databases, directories and library holdings.
- Find listservs, communities of practice and electronic newsletters for technical exchange.

- ∅ Limited no-fee seating for 10-12 people will be available at the on-site Madison facility.
- ∅ Fee paid by FHWA to 4 distance-learning registrants in each state of Midwestern Resource Center region (FHWA, DOT, LTAP and one other); \$45 for additional participants, with some scholarships available.
- ∅ Simply log on to the class Web site at your PC and dial the teleconference number that will be given to you.

Fax form to 800-442-4214
